Read Statement
Prior to submitting the application the applicant shall verify to the applicant’s reasonable satisfaction through the use of standard engineering evaluation techniques that the support structure for the small residential rooftop solar energy system is stable and adequate to transfer all wind, seismic, dead and live loads associated with the system to the building foundation.

Read Statement
Prior to submitting the application the applicant at the applicant’s cost and not using a City Building Inspector shall verify to the applicant’s reasonable satisfaction using standard electrical inspection techniques that the existing electrical system including the existing line, load, ground and bond wiring as well as main panel and subpanel sizes are adequately sized based on the existing electrical system current use, to carry all new photovoltaic electrical loads.

1 BUILDING PERMIT INFORMATION FORM - electronic signature is provided on internet.
